Subject: TJ River Language

Administrator,

Good to talk to you re. Tijuana River wastewater pollution and our work in USCMA to secure funding to address this pressing issue. I also wanted to flag that we have offered language to USTR that we are trying to get into the implementing text to place EPA in the coordinating role among all the entities to work on this issue, attached, but we haven't heard back from USTR yet on their response to this language.

Best,
Robert
